

**Concurrent Report Copies** profile name allows you to change the number of copies set to come off the printer, without having to keep changing it in the request screens.

- a) Click into the **User Value** field
- b) Enter 1 in the field (*Even if you select a number higher than 1, you will still only get 1 copy*). If you are running a lot of reports then enter 0 in field so that it prints to screen first for you to view and then you can reprint if required.

Profile Name	Default Value	User Value
Concurrent:OPP Process Timeout	300	
Concurrent:OPP Response Timeo	120	
Concurrent:PCP Instance Check	ON

Concurrent:Request Priority	50	
Concurrent:Request Start Time		
Concurrent:Save Output	Yes	
Concurrent:Sequential Requests		
Concurrent:Show Request Set Sta		
Concurrent:TM Transport Type	PIPE	
Concurrent:URL Lifetime		

## Setting a Default Printer

**Save** your work and put your screen back into query mode by pressing **F11** and type in **PRINTER%** and press **Ctrl F11**.

**Printer** profile name allows you to set your own printer name in the User Value column by clicking in the user value field and using the list of values to select required printer. Not all printers are compatible with CUFS so you may need to check with your computer officer.

Profile Name	Default Value	User Value
Printer	noprint	zz_pr18030

**Save** your work.
