

# Cognos GL Journal Transactions report

Available in Cognos, this General Ledger report provides detailed General Ledger journal line information.

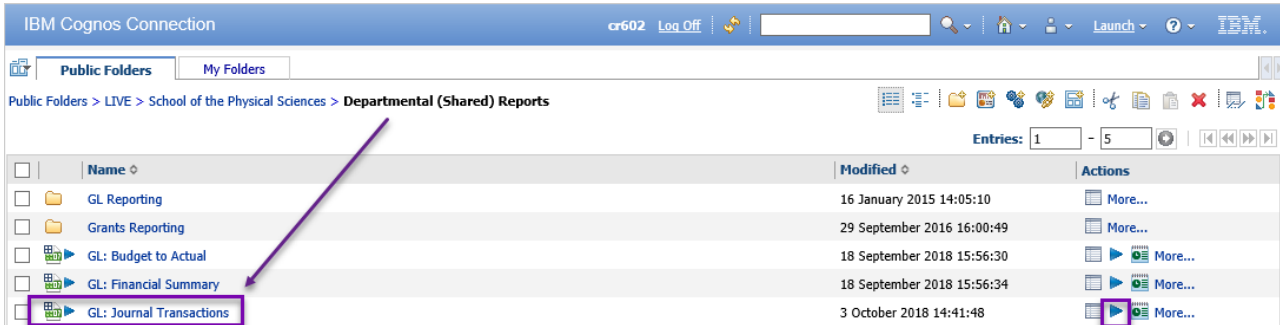

This report has a variety of optional fields, allowing users to customise the output to better suit their requirements and see information about source transactions for the journal lines if required. It is intended to be used as a working report, and as such does not contain any header, footer, or summary information in order to ease manipulation of the output to meet user needs.

The *GL Journal Transactions* report is intended for use by Departments, Schools and Central Finance and uses the standard security model, restricting information returned to only Departments or Schools the user has been granted access to.

The default output option for this report is Excel, but output can be changed to all standard formats (including PDF and HTML).

### To run the GL Journal Transactions report

In Cognos, navigate to: **Public Folders > LIVE > your school folder > Departmental (Shared) Reports > GL: Journal Transactions**

To run the report, click on **Run with Options** icon to the right of the report. Remember not to click on the report name to run as this will bypass the format and output options.

**Parameter screens**

As with the other Cognos reports, the report has a variety of optional fields, allowing users to customise the output to better suit their requirements.

**Accounting date parameters**

Date parameters are used to select the date range to be covered in the report.
