Transaction Codes

Transaction Codes are used to describe the actual product/service for both income and expenditure. This is required for reporting and control purposes. The code consists of four characters: the first identifies what sort of transactions it is, the next three exactly what the transaction was.

E.g. If you were ordering some box files you would select transaction code ESBC

- E: Expenditure on Consumables account
- S: Stationery and Office Supplies
- BC: Box Files

Types of Transactions

There are quite a few different transaction types (the first character) but the ones you will most commonly use are probably:

- A: Stipends – Established Posts
- B: Stipends - Casual
- C: Wages
- D: Wages
- E: Consumables Expenditure
- F: Other Expenses
- H: Grant Received from HEFCE
- J: Grants Received from TTA (Teacher Training Agency)
- K: Academic Fees & Support Grants
- L: Other Operating Income
- N: Endowment Income and Investment Activity

Description of actual transaction

The majority of the time you will be selecting a transaction code that will relate to either expenditure or operating income. There are long lists for each, but as with sources of funds there is a logical sequence behind them and you may find the following paragraphs and summary lists helpful. These are also available via a link to the Financial Procedures Manual from the Finance web page:
