

Quick Tip: Excel SumVisible

Tutorial

To watch video, click [here](#). (MS Streams, 1m33s)

VBA Code

```
Public Function SumVisible(myRng As Range)
Dim myCell As Range, mySum As Double
Application.Volatile
```

```
For Each myCell In myRng
  If myCell.ColumnWidth <> 0 Then mySum = mySum + myCell.Value
Next myCell
SumVisible = mySum
End Function
```
