Checking Out

Depending on your approval limit you will have one of the following checkout options:

**Within limit:** The requisition will approve, the system will create it into a purchase order and either the system or a colleague will approve the order.

**Outside Limit:** You will have to forward it to a colleague for approval. Once approved by a buyer the system will create it in to an approved order.

Either way, if the order was to a Marketplace supplier it will transmit directly, if it was a Non-Catalog order it will be printed and faxed.

Regardless of which check out method, you must ensure that the correct account code and tax codes are used. In addition to this you can also specify different Need-By dates, location codes, split cost of an item over a variety of codes, add notes to Non-Cat suppliers and add attachments.

1. Select the **View Cart and Checkout** button with items in your cart to open the shopping cart window.

   ![Shopping Cart]

   **Please note:** Marketplace suppliers systems are unable to cope with the direct transmitting of Marketplace orders where there is more than one type of VAT e.g. paper at SR20% and a book at NO-UK VAT to the same supplier. Please ensure Marketplace orders to the same supplier do not have mixed VAT items. A separate requisition must be raised.
### Shopping Cart: Requisition Information

</table>

**Total**: 50.00

1. **Amend the Requisition Description** if need-be. It’s purely for your information only.

2. **Need-By date** will default in from Preferences set up.

3. **Deliver-To Location** will default in from Preferences set up. If any data needs to change then manually amend it here by entering dept code and then tabbing. **Quick select** the relevant code.

4. **Tax Classification Code** More often than not it will say SR20%, which relates to all items in your cart. If tax code varies for the items in your cart, refer to **Edit Lines** on page 4. Refer to separate guidance on tax codes.

5. **Requester** will default in with the name of the person raising the requisition. If you are raising on behalf of a colleague you may be able to search and enter their name (but only if they are a CUFS user).
Billing

6. Information will vary here depending on whether you set codes in Preferences or Personal Profiles and whether you are coding to Projects or departmental account.

   a. **Coding to projects**
      
      i. If you set up **Project Information in Preferences** then the information will default in the Project, Task, Award, Expenditure Type, Expenditure Organization fields.

      ii. If you didn’t do the preferences set up, complete the fields either manually entering the information or using the torch to search to enter the project you are coding all the expenditure of this cart to.

      iii. Complete **Expenditure Item Date**

   b. **Coding to a Department account (charge account field)**

      Changing the GL coding (or to code each line separately) is done at the checkout stage.

7. From the shopping cart screen click on **Approve and Checkout** to display the Checkout: Requisition Information screen.

8. **Bill to location**

   This will typically be either XX or XXSSF (with the Xs replaced with your two letter department code).

9. **Attachments**

   To upload an attachment for a particular item, select the green + icon. A window will open enabling you to upload a file.

10. To update the coding information, tax information or to track an item as an asset, tick the box beside the item and select Update.
11. **Tax Classification Code**

This can be adjusted to update the tax for the item being updated. Remember you must not mix VAT rates for Marketplace orders.

12. **Accounting Flexfield**

The accounting flexfield can be updated to code the item to a GL code.

13. **Grant Information**

The Project, Task, Award, Expenditure type, Expenditure Organisation, and Expenditure Item Date and be filled in to code the item to a grant.

14. **Track as Asset**

If the item qualifies as an asset (item £5,000 or more remaining within the University for at least one year), enter a Y into the Track As Asset field.

15. Select **Apply** to commit any changes to the item. If you have multiple items in your cart you will need to repeat steps 10-14 as necessary.

**Warning** – If you select the tick box at the bottom of the window, the system will override the transaction codes for all items.

---

**Submitting Requisition: Within your Approval limit**

Once you have clicked on **Submit**, the requisition will approve and either a colleague will autocreate it into an order or the system will create a purchase order per supplier in your cart. If it is to a Marketplace supplier the system will transmit it directly. If it is a Non-Catalog supplier the system will print it, as long as the Personal Profile set up was completed, then fax it to supplier. You will receive emails advising you of the relevant purchase order numbers.

**Please note:** If you receive an email advising you that the ‘**Requisition no longer exists**’, no action is required. This is due to the timing difference between the system generated notification emails advising you that the requisition is approved and the subsequent purchase order/s have been approved. The email can be ignored as it is has no impact on
the requisition or order.

**Forwarding your Requisition: Outside Approval Limit**

16.1 Click **Manage Approvals** and type in the surname of the colleague you wish to send it to in the Approver field (your colleague's approval limit must be higher than yours!), tab and name will default in unless there is more than 1 individual with that name, in which case **Quick Select** the relevant name.

16.2 **Submit**

16.3 If you want to add more than 1 approver, click on **Manage Approvals** again and repeat step 8.2. You can **Add to Location** if you wish to change the order of approvers.

16.4 You can add a **Note To Buyer** and **Add Attachment** for the entire cart.

   Attachments to suppliers (i.e. Category: To Supplier) can only be used for non-catalog orders. Supplier attachments for Marketplace orders will not be transmitted with the order.

16.5 Click **Submit**. The requisition will now be sent to the relevant people in the order you stipulated for approval, they will receive an e-mail notification and it will display in their My Notification screen.
