**Marketplace – Read Only Access**

This is a step-by-step guide for read only access users of Marketplace.

Read only access allows an end user to search the Marketplace (Science Warehouse) and create a saved basket of goods that can be shared with a pre-defined member of Cambridge staff such as a departmental buyer. This person will process the basket of goods and place a purchase order on your behalf.

Read only access must be requested by your departmental key contact using the access request form. [https://ufs.admin.cam.ac.uk/user-access-cufs-cognos-read-only-marketplace](https://ufs.admin.cam.ac.uk/user-access-cufs-cognos-read-only-marketplace)
